Gökalp Vural

Junior Software Developer

Ankara/Altındağ, Türkiye • +90 531 612 0979 • gokalp76000@gmail.com • LinkedIn • GitHub

PROFESSIONAL PROFILE

Recent Computer Programming graduate and software developer with a passion for problem solving. Built an offline encrypted card wallet mobile app with Flutter/Dart, web tools with JavaScript, and a live task management app with React and Node.js. Combines a UI/UX design background with technical skills to turn complex structures into user-friendly solutions, and keeps improving through clean-code principles.

EDUCATION

Feb 2024 – Feb 2026

Computer Programming (Associate Degree), Ankara Medipol University
- GPA: 3.04 / 4.00
- Relevant Courses: Data Structures, Object-Oriented Programming, Web Programming

ACADEMIC & PERSONAL PROJECTS

Jun 2025

Associate Degree Capstone Project – Retrogame (Nostalgic Game Web Interface)
- Designed a user-friendly web interface that fits a retro game concept (HTML, CSS).
- Turned the design into code and completed the on-page integration work in full.

Oct 2026

Card Wallet – Offline Encrypted Card Wallet Mobile App (Flutter)
- Developed a fully offline, KVKK-compliant (Turkish data protection law) card wallet app for Android and iOS with Flutter/Dart (no internet permission; no data leaves the device).
- Stored card data encrypted with flutter_secure_storage (Android Keystore / iOS Keychain); hashed the PIN with PBKDF2-HMAC-SHA256 and enforced a persistent lockout after failed attempts.
- Delivered a secure, user-friendly experience with screenshot blocking, automatic lock when the app is backgrounded, a 3D flipping card interface, card editing/deletion and custom-drawn (CustomPainter) card patterns; published the Android APK on GitHub.

Oct 2026

Retro Photo Booth – Browser-Based Analog Camera Effect App (JavaScript)
- Developed a web app that gives photos an analog camera look, applying tone, vignette, grain and frame effects on canvas (HTML, Tailwind CSS, JavaScript).
- Offered export in 8 formats; all processing happens in the browser, so images are never uploaded to a server.

Oct 2026

Pet Care – Pet Health Tracking and Social Network Mobile App (Flutter)
- Developed a pet health app with Flutter/Dart featuring vet history and appointment tracking, a post feed, messaging and a map.
- Mapped clinics with color-coded markers using flutter_map; implemented phone login, persistent sessions and light/dark themes.

Oct 2026

tidyfiles – File Organizer Command-Line Tool (Python)
- Developed a command-line tool that organizes files by type and date, with dry-run and undo support.
- Wrote unit tests and set up a GitHub Actions CI pipeline that runs the tests on Ubuntu and Windows.

Oct 2026

Taskboard – Team Task Management Web App (React, Node.js, PostgreSQL)
- Built a drag-and-drop task board with React/Tailwind, plus a Node.js/Express REST API and a PostgreSQL database.
- Implemented role-based authorization with JWT; wrote 87 tests, set up CI and deployed to Vercel and Neon.

WORK EXPERIENCE

Dec 2025 – Jun 2026

Graphic Designer, Serçe Teknoloji
- Wrote interface (UI) copy and promotional content for the Serçe Tech app and Serçe Akademi.
- Turned the technical details of educational software into engaging marketing content.
- Increased interest in Serçe Teknoloji by about 20% with the digital ads, flyers and posters I designed.

SKILLS

Software & Development	Python • HTML • CSS • C# • C++ • Dart • Flutter • JavaScript • React • Node.js • PostgreSQL
Tools & Version Control	Git • GitHub • GitHub Actions (CI) • Visual Studio Code • Android Studio
Design & Visual Editing	Canva • Figma
Video Editing & AI Tools	Canva • CapCut • HeyGen • Claude
Personal Skills	Fast Learning • Problem Solving • Creative Content Production • Attention to Detail • Software development with AI tools

CERTIFICATES

Anthropic	Claude 101 – Certificate of Completion

LANGUAGES

Turkish	Native
English	B1
